CONTENTS OF 97B

Vol. 97B, No. 1.

Review

P. F. Zagalsky, E. E. Eliopoulos and J. B. C. Findlay 1 The architecture of invertebrate carotenoproteins

Mini-Reviews

J. Herbert Waite 19 The phylogeny and chemical diversity of quinone-tanned glues and varnishes

Norimasa Matsuoka 31 Evolutionary relationships of sea-urchins at the molecular level

Lee-Shing Fang and Jeffrey L. Bada 37 The blue-green blood plasma of marine fish

General Papers

W. D. Melrose, A. M. Pearse, P. A. Bell, D. M. D. Jupe, M. J. Baikie, J. E. Twin and S. L. Bryant 47 Haematology of the Australian eastern quoll, *Dasyurus viverrinus*—II. Red cell enzymes and metabolic intermediates

A. Marcinkowska, R. Danielewicz and M. Wolny 49 The effect of temperature on catalytic function of glyceraldehyde-3-phosphate dehydrogenase from muscle of pig and carp *Cyprinus carpio*

Madeleine Douaire, Patrick Langlois, Frédéric Flamant and Jacques Mallard 55 ApoVLDLII gene transcription in immature cockerels without estradiol stimulation

Mateusz Żelewski and Julian Świerczyński 59 Comparative studies on lipogenic enzyme activities in brown adipose tissue and liver of the rat during starvation–refeeding transition and cold exposure

M. Masetti and V. Scali 65 Comparative vitellin pattern and cladogenesis in *Bacillus* (Insecta: Phasmatodea)

Klaus Anger and Joachim Harms 69 Elemental (CHN) and proximate biochemical composition of decapod crustacean larvae

Andrzej Jarzębski and Roman Wenne 81 Sterol composition of marine bivalves from the genus *Macoma*

George Loo, Harry Y. C. Wong, Phyllis G. Kliman, Elliott Berlin, Renee Peters, Hassen T. Sherief, Hanzhong Zhuang and Patricia C. Allen 83 Effect of dietary cholesterol on the lipoprotein profile and binding of radioiodinated lipoproteins to hepatic membranes in the cockerel (*Gallus domesticus*)

Iva Pichová and Vladimír Kostka 89 Molecular characteristics of pepsinogen and pepsin from duck glandular stomach

Barbara L. Adame, Julio G. Soto, Deborah J. Secraw, John C. Perez, James L. Glenn and Richard C. Straight 95 Regional variation of biochemical characteristics and antigeneity in Great Basin rattlesnake (*Crotalus viridis lutosus*) venom

Tsuyoshi Muramatsu and Takako Sogi 103 Characterization of alginate lyases from a marine bacterium

Thomas A. McKean 109 Comparison of respiration in rat, guinea pig and muskrat heart mitochondria

Mahmoud Edjlali, Danielle Laval-Martin and Régis Calvayrac 113 Catalatic capacities in heat-shocked *Euglena* cells

H. S. Yong 119 Low allozyme variability in *Bactrocera albistrigata* (Insecta: Diptera: Tephritidae) from Peninsular Malaysia

Lori C. St John and Frank P. Bell 123 Arterial fatty acid-binding protein activity associated with dietarily-induced and spontaneously occurring atherosclerosis in the rabbit (*Oryctolagus cuniculus*)

Maria del R. Gonzalez-Baro, Carlos E. Irazu and Ricardo J. Pollero 129 Palmitoyl-CoA ligase activity in hepatopancreas and gill microsomes of the freshwater shrimp *Macrobrachium borellii*

Barbara Zakrzewska and Maria M. Jeżewska 135 Comparison of xanthine:NAD^+ oxidoreductase from liver of two uricotelic species: hen *Gallus gallus* and snake *Natrix natrix*

Barbara Zakrzewska and Maria M. Jeżewska 141 Xanthine:NAD^+ oxidoreductase from embryo liver of hen *Gallus gallus*

Arnt J. Raae 145 Effect of low and high temperatures on chymotrypsin from Atlantic cod (*Gadus morhua* L.); comparison with bovine α-chymotrypsin

Matthias-H. Kreuter, Robin E. Leake, Frank Rinaldi, Wolfgang Müller-Klieser, Armin Maidhof, Werner E. G. Müller and Heinz C. Schröder 151 Inhibition of intrinsic protein tyrosine kinase activity of EGF-receptor kinase complex from human breast cancer cells by the marine sponge metabolite (+)-aeroplysinin-1

Carme Espinet, Ramon Bartrons and José Carreras 159 Isolation and characterization of phosphofructo 2-kinase from chicken erythrocytes

Laurence S. Harbige, K. Ghebremeskel, Glynne Williams and P. Summers 167 *N*-3 and *N*-6 phosphoglyceride fatty acids in relation to *in vitro* erythrocyte haemolysis induced by hydrogen peroxide in captive common marmosets (*Callithrix jacchus*)

H. J. Doran, T. F. Cross and T. C. Kelly 171 Electrophoretic identification of bird species involved in collisions with aircraft

Ahmed Mohamud Osman, Antonella Del Corso, Abdullahi Sheck Mohamed, Pier Luigi Ipata and Umberto Mura 177 Liver purine nucleoside phosphorylase in *Camelus dromedarius*: purification and properties

Xi Lin Yuan, Hajime Mori, Fujiyoshi Matsubara and Motoyuki Sumida 183 Isolation of three species of soluble sucrase from larval midgut of the silkworm, *Bombyx mori* and some kinetic properties

N. C. Bethlenfalvay, J. C. White, E. Chadwick and J. E. Lima 193 Studies on the energy metabolism of opossum (*Didelphis virginiana*) erythrocytes—VI. *De novo* purine nucleotide biosynthesis is limited to the final steps of the pathway *in vitro*

Heinrich Greive and Bernhard Surholt 197 Dependence of fructose-bis-phosphatase from flight muscles of the bumblebee (*Bombus terrestris* L.) on calcium ions

Nobuo Wakata, Yuko Kawamura, Masako Kobayashi and Masao Kinoshita 201 Biochemical and histochemical studies on skeletal muscle in rat during the course of development. The biochemical properties of type 2C muscle fiber

Min-Hong, Yan Jin, Yin-Qiao Mai and Kia-Ki Han 205 The effects of salt-loading and dehydration on atrial natriuretic peptide (ANP) gene expression

Ali S. Duhaiman and M. H. Ismail 209 Age-dependent variations in the camel lens crystallins

Vol. 97B, No. 2.

Review

Louise Muntz 215 Cellular and biochemical aspects of muscle differentiation

Mini-Review

Clifford W. J. Chang and Paul J. Scheuer 227 Biosynthesis of marine isocyanoterpenoids in sponges

General Papers

Nelsy Fenerich-Verani, Maria Luiza B. Schwantes and Arno Rudi Schwantes 235 Patterns of gene expression during *Prochilodus scrofa* (Characiformes: Prochilodontidae) embryogenesis—I. Lactate dehydrogenase

Nelsy Fenerich-Verani, Maria Luiza B. Schwantes and Arno Rudi Schwantes 247 Patterns of gene expression during *Prochilodus scrofa* (Characiformes: Prochilodontidae) embryogenesis—II. Soluble malate dehydrogenase

David A. Hood 257 Species-specific expression of cytochrome c oxidase subunit III mRNA

Lawrence K. Duffy, Joakim Luick and Dorian H. Coppenhaver 261 Prosimian hemoglobins—V. The primary structures of the α-I, α-II and β-hemoglobin chains of *Hapalemur griseus*, with a note on the classification of *Microcebus*

S. Turunen and M. Pekkarinen 269 Fatty acid profile of the digestive gland and mantle in the bivalve *Macoma balthica*

M. B. Conceição, J. A. Levy, L. F. Marins and M. A. Marcovaldi 275 Electrophoretic characterization of a hybrid between *Eretmochelys imbricata* and *Caretta caretta* (Cheloniidae)

Izaskun Ibarguren, Maria Dolores Vazquez-Illanes and Juan Ignacio Ramos-Martinez 279 Seasonal variations in glycolysis in *Mytilus galloprovincialis* Lmk

D. W. Stanley-Samuelson, R. W. Howard and E. C. Toolson 285 Phospholipid fatty acid composition and arachidonic acid uptake and metabolism by the cicada *Tibicen dealbatus* (Homoptera: Cicadidae)

A. D'Aniello, G. Nardi, M. Cipollaro, M. Pischetola and L. Padula 291 Occurrence of D-alanine in the eggs and the developing embryo of the sea urchin *Paracentrotus lividus*

Lynne A. Opperman and F. Patrick Ross 295 The adult fruit bat (*Rousettus aegyptiacus*) expresses only calbindin-D9K (vitamin D-dependent calcium-binding protein) in its kidney

Demetrios G. Mappouras and Emmanuel G. Fragoulis 301 L-DOPA decarboxylase in *Ceratitis capitata* white puparia and human: a comparative study

Verónica Cambiazo and Nibaldo C. Inestrosa 307 Proteoglycan production in *Drosophila* egg development: effect of β-D-xyloside on proteoglycan synthesis and larvae motility

Masato Kinoshita, Haruhiko Toyohara and Yutaka Shimizu 315 Characterization of two distinct latent proteinases associated with myofibrils of crucian carp (*Carassius auratus cuvieri*)

Somaya O. El Deeb, Tahany H. Hassan, Edwin L. Cooper and Abdel Hakim M. Saad 321 Characterization of diverse hemolymph lectins in the cotton caterpillar *Spodoptera littoralis*

G. Liverini, F. Goglia, A. Lanni, S. Iossa and A. Barletta 327 Elevated hepatic mitochondrial oxidative capacities in cold exposed rats

Ross N. Butler, Irene Stafford, Evangelos Triantafillos, Claire D. O'Dee, Ivan G. Jarrett, Martin J. Fettman and Ian C. Roberts-Thomson 333 Pyruvate sparing by butyrate and propionate in proliferating colonic epithelium

Antonio Capasso, Vincenzo Carginale, Benita de Petrocellis and Elio Parisi 339 Guanine nucleotide binding proteins activate adenylate cyclase from sea urchin sperm

F. Trombetti, V. Ventrella, A. Pagliarani, G. Trigari and A. R. Borgatti 343 Mg^{2+}-dependent ($Na^+ + K^+$)- and Na^+-ATPases in the kidneys of the gilthead bream (*Sparus auratus* L.)

Bhandaru Radhakrisnamurthy, Sathanur R. Srinivasan, Harold A. Ruiz, Edward R. Dalferes, Jr and Gerald S. Berenson 355 Variations in the composition of arterial wall isomeric chondroitin sulfate proteoglycans among different animal species

Conxita Avila, Manuel Ballesteros, Guido Cimino, Antonio Crispino, Margherita Gavagnin and Guido Sodano 363 Biosynthetic origin and anatomical distribution of the main secondary metabolites in the nudibranch mollusc *Doris verrucosa*

K. Peeters, J. Mertens, P. Hebert and L. Moens 369 The globin composition of *Daphnia pulex* hemoglobin and the comparison of the amino acid composition of invertebrate hemoglobins

Teresa Proverbio, I. Percy Zanders, Reinaldo Marín, José M. Rodríguez and Fulgencio Proverbio 383 Effects of Na^+ and/or K^+ on the Mg^{2+}-dependent ATPase activities in shrimp (*Macrobrachium amazonicum*) gill homogenates

Thomas J. Difeo, Anthony W. Addison and Thomas F. Kumosinski 391 Chiroptical and physicochemical properties of the extracellular haemoglobin from *Cirriformia tentaculata*

401 Erratum

Vol. 97B, No. 3.

Mini-Review

Samuel C. Wadsworth 403 *Drosophila src* family proteins

General Papers

Ivan Yu. Sakharov and Fedor E. Litvin 407 Stability of serine collagenolytic protease A from hepatopancreas of crab *Paralithodes camtschatica*

G. E. Bronnikov, S. O. Vinogradova and V. S. Mezentseva 411 Changes in kinetics of ATP-synthetase and in concentrations of adenine nucleotides in ground squirrel liver mitochondria during hibernation

Simon Welch 417 A comparison of the structure and properties of serum transferrin from 17 animal species

P. Kovács and G. Csaba 429 Impact of histamine treatment and feeding on the hydrolytic enzyme level of *Tetrahymena* in culture and in conditions of starvation

Adalberto Luís Val, Vera Maria Fonseca de Almeida-Val and Elizabeth Gusmão Affonso 435 Adaptative features of Amazon fishes: hemoglobins, hematology, intraerythrocytic phosphates and whole blood Bohr effect of *Pterygoplichthys multiradiatus* (Siluriformes)

T. B. Ng 441 Studies on hormonal regulation of lipolysis and lipogenesis in fat cells of various mammalian species

Yasmin Erfanian-Taheri, Kamran Erfanian-Taheri, Jörg Schumann, Heinrich-Gustav Busse and Joachim Das 447 Age-dependent proteins in eyes of annual killifishes *Pterolebias longipinnis* detected by 2-dimensional electrophoresis

Emel Arınç and Aydan Aydoğmuş 455 Lung microsomal *p*-nitrophenol hydroxylase-characterization and reconstitution of its activity

L. A. J. Al Hassan 461 Phosphoglucomutase, superoxide dismutase and glucose-6-phosphate dehydrogenase in fish collected from Iraq and Kuwait—a comparative study

María Imschenetzky, Marcia Puchi, Victoria Merino and Patricia Zepeda 467 Microheterogeneity of late histones in larval stages of sea urchin development

Kazuhito Amanai, Sho Sakurai and Tetsuya Ohtaki	471	Purification and characterization of haemagglutinin in the haemolymph of the silkworm, *Bombyx mori*
Jill A. Jenkins and Donald D. Ourth	477	Membrane damage to *Escherichia coli* and bactericidal kinetics by the alternative complement pathway of channel catfish
R. S. Rolle, M. R. Marshall, C. I. Wei and J. S. Chen	483	Phenoloxidase forms of the Florida spiny lobster: immunological and spectropolarimetric characterization
P. K. Gladu, G. W. Patterson, G. H. Wikfors, D. J. Chitwood and W. R. Lusby	491	The occurrence of brassicasterol and epibrassicasterol in the Chromophycota
Toshinobu Yaginuma, Michihiro Kobayashi and Okitsugu Yamashita	495	Effects of low temperatures on NAD-sorbitol dehydrogenase activity and morphogenesis in non-diapause eggs of the silkworm, *Bombyx mori*
Yumiko Komori, Toshaiki Nikai and Hisayoshi Sugihara	507	Comparative study of three phospholipase A_2s from the venom of *Vipera aspis*
Sunanta Ratanapo and Montri Chulavatnatol	515	Monodin, a new sialic acid-specific lectin from black tiger prawn (*Peneaus monodon*)
George Broughton II, Anthony Tseng, Robert Fitzgibbons, Jr, Arthur F. Fishkin and Edward L. Rongone	521	The quantitative and qualitative analysis for biliary lipids in the prairie dog *Cynomys ludovicianus*
Yuichi Kimura, Yutaka Watanabe, Shoichiro Ozaki, Toshitaka Koga and Masato Hirata	527	Ca^{2+}/calmodulin independent inositol 1,4,5-trisphosphate 3-kinase activity in guinea pig peritoneal macrophages
Carlos E. Irazú and Ricardo J. Pollero	535	Sphingophosphonolipids in microsomes of *Diplodon delodontus*. Distribution and effect on the membrane microviscosity
Shoji Yamada and Masayuki Furuichi	539	*N*α-Acetylhistidine metabolism in fish—I. Identification of *N*α-acetylhistidine in the heart of the rainbow trout *Salmo gairdneri*
Nobuo Wakata, Yuko Kawamura, Masako Kobayashi, You Araki and Masao Kinoshita	543	Histochemical and biochemical studies on the red and white muscle in rabbit
F. Huriaux, P. Vandewalle, J. C. Philippart and B. Focant	547	Electrophoretic comparison of myosin light chains and parvalbumins of trunk and head muscles from two barbel (*Barbus barbus*) populations
P. A. Voogt, P. J. den Besten and M. Jansen	555	The Δ^5-pathway in steroid metabolism in the sea star *Asterias rubens* L.
Yumi Ishizaki and Yoshishige Umebachi	563	Further studies on dopamine and *N*-acyldopamine during the pupal stage of *Papilio xuthus* (Lepidoptera: Papilionidae)
Uffe Anthoni, Torger Børresen, Carsten Christophersen, Lone Gram and Per H. Nielsen	569	Is trimethylamine oxide a reliable indicator for the marine origin of fish?
Lluís Bonamusa and Isabel V. Baanante	573	Kinetic characterization of glycogen phosphorylase *b* from skeletal muscle of the mullet *Liza ramada*
Nelsy Fenerich-Verani, Maria Luiza B. Schwantes and Arno Rudi Schwantes	579	Patterns of gene expression during *Prochilodus scrofa* (Characiformes, Prochilodontidae) embryogenesis—III. Glucose-6-phosphate isomerase
R. A. Harkness, G. M. McCreanor, J. Allsop, D. H. Snow, R. C. Harris, P. O. Rossdale and J. C. Ousey	591	Hypoxanthine phosphoribosyltransferase activity in tissues and hypoxanthine concentrations in plasma and CSF of the horse in comparison with other species

G. Bruscalupi, F. Castellano and A. Trentalance 597 Circannual variations in mevalonate utilization in frog (*Rana esculenta*)

Bernard Fried, Eric S. Holender, Prabhakara H. Shetty and Joseph Sherma 601 Effects of *Echinostoma trivolvis* (Trematoda) infection on neutral lipids, sterols, and carotenoids in *Helisoma trivolvis* (Gastropoda)

Masahito Watanabe, Masahisa Shimada, Hirotoshi Watanabe and Masatomo Nakanishi 605 Amino acid content in several brain regions of the active and hibernating frog, *Rana esculenta*

O. Bouchaud and R. Galois 611 Utilization of egg-yolk lipids during the embryonic development of *Sepia officinalis* L. in relation to temperature of the water

Atsushi Imai, Koji Iida and Teruhiko Tamaya 617 Phospholipase C in human endometrial fibroblasts and its regulation by estrogens

Vol. 97B, No. 4.

General Papers

Theodore T. Herskovits, Ronny M. Otero and Mary G. Hamilton 623 The hemocyanin of the ramshorn snail, *Marisa cornuarietis* (Linné)

Theodore T. Herskovits, Rita R. Rodriguez and Mary G. Hamilton 631 Subunit structure and higher order assembly of the hemocyanins of five members of the Naticidae family of marine gastropods: *Calinaticina oldroydii* (Dall), *Euspira heros* (Say), *Neverita duplicata* (Say), *Polinices draconis* (Dall), and *Polinices lewisii* (Gould)

Stephanie S. Liu and D. A. Higgins 637 Yolk-sac transmission and post-hatching ontogeny of serum immunoglobulins in the duck (*Anas platyrhynchos*)

Pasquale Santoro, Valente Guerriero and Giovanni Parisi 645 An orange carotenoprotein from the marine sponge *Axinella verrucosa* (O. Schmidt). Purification and properties

M. de L. Capurro and A. G. de Bianchi 649 A lipid transfer particle in *Musca domestica* haemolymph

M. de L. Capurro and A. G. de Bianchi 655 Larval *Musca domestica* lipophorin biosynthesis

D. R. Livingstone, W. B. Stickle, M. A. Kapper, S. Wang and W. Zurburg 661 Further studies on the phylogenetic distribution of pyruvate oxidoreductase activities

Nadine Martinat, Abdelhak Anouassi, Jean-Claude Huet, Jean Claude Pernollet and Yves Combarnous 667 Purification and characterization of glycosylated and non-glycosylated forms of prolactin from the dromedary (*Camelus dromedarius*)

A. Minelli, R. Fabiani, M. Moroni and I. Mezzasoma 675 Adenosine metabolizing enzymes in seminal plasma of bull and man: a comparative study

Ken-ichi Yoshino, Toshifumi Takao, Masaaki Yamaguchi, Yasutsugu Shimonishi and Norio Suzuki 679 Derivatives of sperm-activating peptide III (SAP-III) associated with eggs of sand dollars, *Clypeaster japonicus* and *Astriclypeus manni*

Leon Senčič and Peter Maček 687 New method for isolation of venom from the sea anemone *Actinia cari*. Purification and characterization of cytolytic toxins

Brett W. Lennon and Ivan I. Kaiser 695 Isolation of a crotoxin-like protein from the venom of a South American rattlesnake (*Crotalus durissus collilineatus*)

Elizabeth A. Stein, Soheil Younai and Edwin L. Cooper 701 Separation and partial purification of agglutinins from coelomic fluid of the earthworm, *Lumbricus terrestris*

Fabien De Meester, David Mirelman, Tamara Stolarsky and David S. Lester	707	Identification of protein kinase C and its potential substrate in *Entamoeba histolytica*
Steven W. Johnson and Jack A. Alhadeff	713	Isoform, kinetic and immunochemical characterization of rodent liver α-L-fucosidases
Richard S. Eisenstein, Robert H. Miller, George Hoganson and Alfred E. Harper	719	Phylogenetic comparisons of the branched-chain α-ketoacid dehydrogenase complex
Frans Novak, Danny De Clerck, Guido Paesen, Luc Swevers, Liesbet Paemen and Arnold De Loof	727	Radioimmunological quantification of C_{21}, C_{19} and C_{18} steroids in the gonads of *Locusta migratoria migratorioides* R. and F.
L. Swevers, J. G. D. Lambert and A. De Loof	735	Hydroxysteroid dehydrogenase activity in tissues of two insect species
Helmut Goerke and Kurt Weber	741	Locality-dependent concentrations of bromophenols in *Lanice conchilega* (Polychaeta: Terebellidae)
D. P. Petrovich, S. Morris and B. R. McMahon	745	Oxygen binding by the hemocyanin of *Busycon canaliculatum*
D. Di Cola, M. Miranda, A. Bonfigli, O. Zarivi, S. Santarone and P. Sacchetta	751	Changes of a high molecular mass proteinase activity during *Bufo bufo* development
Andrew G. Yersin, F. W. Edens and D. G. Simmons	755	Tryptophan 2,3-dioxygenase activity in turkey poults infected with *Bordetella avium*
De-Xing Hou, Yoshizane Maeda, Shin Okamoto and Tsutomu Hashiguchi	761	Purification and characterization of chymotrypsinogen from pancreas of Japanese quail (*Coturnix coturnix japonica*)
Susan J. Sulakhe, T. H. J. Gilmour and V. B. Pulga	767	γ-Glutamyltranspeptidase in echinoderm eggs and larvae: fertilization-dependent and developmentally-induced changes in specific activity
Asbjørn Gildberg and Kersti Øverbø	775	Purification and characterization of pancreatic elastase from Atlantic cod (*Gadus morhua*)
Shigeaki Kato, Shigehiko Itoh, Yutaka Miura, Hiroshi Naito and Tadashi Noguchi	783	Characterization of insulin receptors in primary cultures of quail (*Coturnix coturnix japonica*) oviduct cells. The level of insulin receptor is regulated by steroid and peptide hormones
Y. Ochiai, T. Kobayashi, A. Handa, S. Watabe and K. Hashimoto	793	Possible presence of the difference peptide in alkali light chain 1 of fish fast skeletal myosin
Rossana D'Avino, Laura Camardella, Vito Carratore and Guido di Prisco	803	The amino acid sequence of the α chain of Hb 2 completes the primary structure of the hemoglobins of the Antarctic fish *Notothenia coriiceps neglecta*
A. Ĺanni, R. Martins, L. Ambid and F. Goglia	809	Liver and brown fat mitochondrial response to cold in the garden dormouse (*Eliomys quercinus*)
T. Brittain and R. M. G. Wells	815	The pH dependence of the affinity, kinetics and cooperativity of ligand binding to the Root effect haemoglobin of the goldfish *Carassius auratus*
N. S. Al-Zaid and K. A. Gumaa	821	The collagen composition of the dystrophic hamster diaphragm
Chul Yong Song, Marc H. Dresden and Ajay A. Rege	825	*Clonorchis sinensis*: purification and characterization of a cysteine proteinase from adult worms
Christopher C. Landry and Richard W. Topham	831	Purification and characterization of an iron-binding protein from the blue crab (*Callinectes sapidus*)

P. F. Zagalsky, R. S. Mummery, E. E. Eliopoulos and J. B. C. Findlay 837 The quaternary structure of the lobster carapace carotenoprotein, crustacyanin: studies using cross-linking agents

Nancy L. Pruitt, Sandra L. Taylor and Peter N. Ferns 849 Membrane lipid composition and overwintering site of the wading bird *Calidris alpina*

A. H. Warner and M. J. Sonnenfeld 855 Comparative study of guanosine nucleotide levels in thirteen populations of *Artemia* cysts
